WORK EXPERIENCE

- **AFT (Akhtar Fuiou Technology)** **Sep. 2022 – Present**
 - Promoted from Full Stack Intern to Associate Software Engineer within 6 months.
 - Created backend microservices for the Digitt+ Digital Wallet application, an EMI (Electronic Money Institution) application, using Java Spring Boot.
 - Developed a robust payment gateway facilitating secure and seamless transactions via Digitt+.
 - Engineered open banking APIs to enable external party integrations, enhancing the platform's versatility and connectivity.
 - Provided support for the Digitt+ application by addressing production issues, debugging and fixing errors, and checking logs.
 - Integrated various third-party services into backend microservices, streamlining operations and boosting system efficiency.
 - Set up CI/CD pipelines to streamline development workflows and accelerate releases.
 - Contributed to thorough documentation for the codebase, APIs, and processes.
 - Developed Market-Level Digitt+ Portal using Vue.js, motivating and collaborating with the team.
 - Demonstrated problem-solving skills by resolving technical challenges and improving system stability.

CERTIFICATIONS

- **Full Stack Web Development (Mern Stack)**
Ideoversity, Arfa Tower.
- **Spring Certified Professional**
Spring Academy.
- **Getting Started with Spring Boot**
Amigos Code.
- **Securing Your Spring Boot 3.0 Application with JSON Web Token (JWT)**
Alibou Coding.
- **Object-Oriented Programming Concepts**
LearnQuest, Coursera.
- **CPA: Programming Essentials in C++**
Cisco.
